

FLOORING WITH **ARTSENSE®** Sintered Stone

Talostone® Artsense® collection is ideal for flooring, elevating any design and ensuring continuity throughout your space.

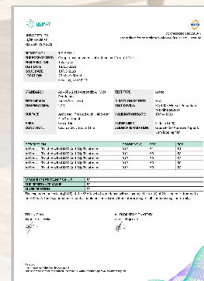

The sleek 12mm thickness makes Talostone® Artsense® a light-weight, easy and practical choice when it comes to flooring. The Artsense® collection is also UV resilient, making it perfect for external use and a great way to extend the design throughout your home and garden.

Depending on the specific slip rating requirements for your space, selected colours are suitable in their original state. With a simple treatment process or coating, all the colours and finishes within the collection can be adapted to meet a wide range of residential and commercial flooring applications.

To review slip ratings before and after treatment for each individual colour, as well as general slip rating requirements and certifications, please refer to the **Unimat Artsense® Slip Testing Report Summary** and **Nata Certificate**.

Unimat Report

Nata Certificate
