

FLOORING WITH

NATROCCIA®

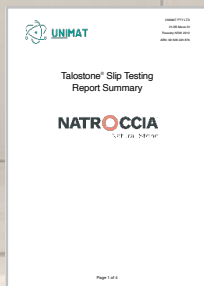

Natural Stone

Talostone® Natroccia® collection is a great way to add a unique and timeless element to your flooring, expanding your design possibilities.

Selected Natroccia® colours may be suitable in their original condition, subjective to the slip rating requirements for your space. If you require a higher rating, with either a simple treatment process or coating, all the colours within the collection can be adapted to meet a wide range of residential and commercial flooring applications.

The Natroccia® collection is also UV resilient and a beautiful way to create the perfect outdoor space.

To review slip ratings before and after treatment for each individual colour, as well as general slip rating requirements, please refer to the **Unimat Natroccia® Slip Testing Report Summary**.

Unimat Report

With the support of a trusted partner like Unimat, you can confidently extend the beauty of Talostone® Natroccia® to floors and stairs - without compromising on safety. Once you've selected your ideal Talostone® Natroccia® colour, simply follow the link below to connect with Unimat for expert advice and a tailored quote.

DISCLAIMER

Pending specific situational treatment requirements, Talostone® Natroccia® surface colouring may vary after treatment. Anyone wishing to carry out slip treatments to Talostone® products, do so at their own risk. Please reach out to our Head Office for further clarification via email to info@talostone.com.au or by phone on 02 8783 0600.
